Hexon V 0.2

Core Evidence Tiers (unchanged)

[1] Peer-reviewed primary source [2] Official agency / telescope data [3] Expert consensus only [4] Preprint / reputable author [5] Personal logic / observation [6∅] No evidence → automatically quarantined

Ethical & Projection Operators (unchanged)

↔ Bidirectional ethical accounting ↑ Net increase in lives / well-being ↓ Net decrease in lives / well-being P[low–high]% Probability range

New Mandatory Anti-Misuse Rules (v0.2)

1. **Source Link Mandatory for [1]/[2]** Any claim tagged [1] or [2] **must** include a verifiable link/DOI/archival URL. Failure → automatic downgrade to [5] or [6∅].

2. **Quarantine Challenge Rule** Any [6∅] tag may be publicly challenged with evidence.

   o If challenge succeeds → original tagger downgraded.

   o If challenge fails → challenger downgraded. Public ledger encouraged (reputation points optional but visible).

3. **Self-Tag Disclosure** Personal opinions or beliefs **must** use [5] maximum. Claiming [1]–[4] for subjective views = automatic dishonesty flag → full statement quarantined.

4. **Ethical Vector Symmetry** No claim may assert ↔ ↑ net lives without explicitly addressing known ↓ side (and vice versa). Omission → downgrade to [5] or [6∅].

5. **Version Stamp Required** Every Hexon-θ statement **must** end with the exact tag: #HexonTheta-v0.2 Use of outdated or forked versions = automatic [6∅] quarantine.
